DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/29/2009 has been entered.

Status of Claims

Claims 1-4, 6, 7, 9, and 10 are pending. No new claim amendments were submitted in the 6/29/2009 response by Applicant. Thus, claims 1-4, 6, 7, 9, and 10 are as previously presented, 11/25/2008, under consideration.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-4, 7, and 10 stand provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-10, 12-18, and 20 of copending Application No. 11/04069, as previously set forth in the Office Action, mailed 3/18/2009 (pp. 2-3).

Applicant's arguments filed 6/29/2009 have been fully considered but they are not persuasive.

Applicant asserts that this rejection is overcome by the terminal disclaimer filed 6/29/2009. Applicant's argument is not found persuasive because the terminal disclaimer filed 6/29/2009 is disapproved. The terminal disclaimer filed 6/29/2009 is disapproved because the person who signed the terminal disclaimer does not have power of attorney and is not the attorney of record. Thus, the terminal disclaimer does not overcome the rejection of record.

Claim Objections

Claims 6 and 9, as previously presented are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's arguments filed 6/29/2009 have been fully considered but they are not persuasive.

Applicant asserts that the filing of the terminal disclaimer renders the objection moot and therefore overcomes the objection.

Applicant's arguments are not found persuasive because the terminal disclaimer is disapproved for reasons discussed above. Thus the objection of record this stands.

No claims are allowed.
